Washinoros, May 26.—The Star publishes this morning an article regarding the so-called business men's Arthur meeting in New York, in which are the following rather atomishing assortions: metering in New York, which indoorsed Arthur for renomination. The original plan had an entirely different object in view. The idea of hold different object in view. The idea of hold different object in view. The idea of hold income was to be indorsed was U. S. Grant. This was the plan and understanding so often mysteriomly referred to by Mr. Coulding, and the man to be indorsed was U. S. Grant. This was the plan and understanding so often mysteriomly referred to by Mr. Fedord, of being in the confidence of Mr. Conkling. The design was to conceal the real object of the meeting sudden, as if by an entiasissic impulse, go over to Grant with a rush. This result was looked for by Grants Teineds, and they were completely bewildered when they lost called and Arthur endorsed. The failure of Grant & Ward is given as the cause of the failure of the plan, as Grant's presidential chances were buried in the ruins of his without compass and badly scattered.

"Belford wrote to Conkling day before yesterday asking for some instructions as to what is to be done, but he has not yet without compass and bedly scattered.

The same article assert that friends of Grant and Conkling will support Justle Miller at the convention.
